DEAR Bro. GERARD PATRICK

*Your life has been filled with challenges.
You have looked life differently.
And have taken a road less travelled by others.
You have proved by your life
that we are the change that one seeks and
'If you risk nothing, then you risk everything'.
You have walked a long road
always rushing where God beckons
to meet the urgency of men's needs.
You dared to reach the unreachable
touching the lives of others
the poor, neglected abandoned,
and those broken men and women.
Your outreached arms lifted
the orphans, and the differently abled...
The blind see and the deaf hear.
'Some people touch the lives of others
with all colours of the rainbow, you are one of them.'
As you ascent from the 'gold',
May your vision be fixed
on the distant miles yet be fixed
on the distant miles yet to be traversed
With the angles beckoning you
to your Father's haven with voice-
'Whatever you did to the least of these
brothers and sisters of mine, you did for me'
- Mat.25/40
'I can do all things through him who strengthens me'
- Philip 4:13*

Dream big for God and his people.
